PRODUCT(S)  
**WRAPSHIELD**<sup>®</sup> Water Resistive Vapor Permeable  
Air Barrier Membrane  
  
**WRAPSHIELD HS**<sup>®</sup> Water Resistive Vapor Permeable  
Air Barrier Membrane with Drainage Matrix

PROJECT DESCRIPTION  
Over 4,300 sq. ft. of Wrapshield Water Resistive Vapor Permeable Air Barrier Membrane was installed under Trespa panels, and over 3,500 sq. ft. of WrapShield HS Water Resistive Vapor Permeable Air Barrier Membrane was installed under stucco on the East Rancho Dominguez Library.

The architects wanted a rain screen system that would offer great curb appeal for the neighborhood but also had to be very durable and long-lasting. They specifically chose VaproShield because they passed all of the required fire codes with the Trespa system and membrane had a 20 year warranty. The VaproShield system was also the best on the market for preventing mold and mildew.

Over 4,300 sq. ft. of Wrapshield Water Resistive Vapor Permeable Air Barrier Membrane was installed under Trespa panels.

3,500 sq. ft. of WrapShield HS Water Resistive Vapor Permeable Air Barrier Membrane was installed under stucco.

The architect chose Trespa panels to offer great curb appeal.
